CONDITION OF THE MARKETS

Many and Wide Fluctuations in Wheat, with a Nervous, Unsettled Feeling.

An Advance Is Established and the Market Closes Strong-Good Business in Corn, Accompanied by a Very Strong Feeling.

MONEY, BONDS AND STOCKS.

A Reaction in the New York Market, the Changes Being for Small Fractions. NEW YORK, Oct. 2.-Money on call was easy at 1} @4 per cent, the last loan being made at 31, closing offered at 2 per cent.

Prime mercantile paper, 47 37 per cent. Sterling exchange was dull but steady and

unchanged. The total sales of stocks to-day were 390,991 shares, including the following: Canada Southern, 4,000; Delaware, Lackawanna & Western, 14,850; Erie, 7,720; Lake Shore, 11,091; Louisville & Nashville, 7,742; Missouri Pacific, 11,020; Northern Pacific preferred, 5,600; Oregon Transcontinental, 5.460; Pacific Mail, 5.430; Reading, 36,380; Richmond & West Point, 56,-885; St. Paul, 30,342; Texas Pacific, 6,595; Union

Pacific, 29,070; Western Union, 18,620; Wheeling & Lake Erie preferred, 4,250. To-day has been a day of reaction in the stock market, although the net result of the efforts put forth in that direction is measured by the smallest fractions in most of the list, and decided weakness was shown by only one stock-New England. All the buyers on the late advance seemed to be sellers to-day, and there was a feeling among the "bull" operators that a reaction was fully due; therefore the entire local contingent were ranged for the time upon the side of lower figures, while London and Chica-go are credited with liberal sales of "long" stock. The wheat deal has left many of the operators from Chicago without sufficient funds to meet their contracts, and stocks were thrown over in order to realize the means of keeping themselves affoat. There were several items of news, however, which had a deterrent effect upon buyers, such as the reduction of the Atchison dividend, and that stock, after selling at 83 in the forencen, sold later at 18, but the effect upon this market was extremely limited. The refusal of the Nickel-place to advance east-bound rates, the failure of the Traders' Bank, the cutting of passenger rates by the Baltimore & Ohio, and some other miner matters had more weight, however, and the traders put out another line of "shorts," which, upon the attempt to cover toward the close, was the means of inducing a material rally. On the other hand, the agreement to the terms of the lease of the East Tennessee to the Richmond & Danville was the occasion of renewed strength in the Richmond & West Point and the East Tennessee stocks, although, under the circumstances, the gains recorded were not large. New England was the other feature of the list, and led the decline throughout the day, the pressure upon it being especially severe. Union Pacific was one of the strongest stocks, but its flucstrations were small and unimportant. St. Paul yielded readily in the forenoon and declined over a point, but it rallied with the rest toward the close. Among the inactive shares, the Wabash, Manhattan, and Chicago & Eastern Illinois stocks were quite prominent for strength, but no other features marked the dealings beyoud the feverishness of the list in the forenoon. A rally followed shortly after 1 o'clock, and prices were brought up to within small frac-

The railroad bend market was not so active as that of yesterday, though there was still a very fair business, amounting to \$1,708,000. UHICAGO, Oct. 2.-Fluctuations in wheat were again wild and rapid to-day, and the feeling unsettled and nervous, but the aggregate trading fell far short of yesterday, and most of it was in the way of evening up and settling up trades. There is no doubt a general disposition on the part of operators to close up trades, and commission houses unquestionably are advising their customers to do so, and bold off until the market becomes more settled. Though the last of the session developed more active trading, the opening was very unsettled and prices varied widely in different parts of the crowd. There were a good many buying orders at the start, and but little wheat to be had at the first prices mentioned. The advance in consequence was sharp and rapid, and prices were soon up 3@3to above inside figures. Later the market dropped back 1tc and fluctuated within this range, became firm and advanced 201c above previous outside figures, and closed strong and 2c higher for October, 21c higher for December, and 31c higher for May than the closing figures of yesterday. There was a very good trade in corn. The feeling was rather unsettled, though on the whole generally stronger. Opening sales were at about yesterday's closing prices. The market was steady for a time, then sold off ic, reacted lic, became steady and closed at 1201to higher than yesterday. A feature was the strength developed in the more deferred deliveries, December and the year in particular. Liberal arrivals and the early decline in corn caused an easy feeling in oats, which exhibits recession of it is in price. Mess pork was fairly active at the opening, and first sales were at 15 217je advance on the near futures. A strong feeling prevailed and prices on October advanced 40c, but receded 15c, rallied 221c, and the market closed firm at outside prices. January received more attention and advanced 20c, but reacted slightly before the close. Lard received moderate attention. October was sold freely by one of the largest helders, but prices advanced .121c; later a small recession followed. Prices on the deferred futures were irregular, but a trifle higher. A fair business transpired in short ribs and prices were higher. Opening sales were at .02\frac{1}{2}.07\frac{1}{2}c advance, sold up .22\frac{1}{2}c for October, and .07\frac{1}{2}.10c on the more deferred futures, but reacted to .02\frac{1}{2}.05c, became stronger and advanced .10 2.15c, and the market

INDIANAPOLIS MARKETS.

The Volume of Business Satisfactory-Sugars

INDIANAPOLIS, Oct. 2. There is a good volume of business in progress and a healthy tone to the market generally. Coffees retain their strong tone, while an easier feeling is shown as regards sugars. The New York Bulletin says that the market for raw sugars has dropped into one of those dull spells where neither buyer nor seller make any progress in the effort to gain advantage, and the entire position becomes nominal. The tendency of late, however, has been a little more favorable to holders, as all bands who carefully looked over the statistical showing could not help seeing its natural strength, with little chance of breaking it for a while, at least, and with no arriving parcels of stock to weak importers that might lead to shaded sales from pier, bnyers have not succeeded in getting even the entering wedge of a small fraction off allowed, rather than put goods in store. Refined sugars have had a very quiet week, so much so that there was at all times an ample stock and good assortment, and frequently a surplus of slightly uncomfortable proportions. The effect was naturally more or less depressing upon values, and buyers did get such small favors as it was possible to allow them, but it was "resolved" early in the week to make no official reduction in cost. For canned goods there is a good deat of inquiry and prices are steady at quotations. The provision market rules strong and higher prices are indicated. It is stated that 50 per cent. less stock is now held in this market than at the corresponding period 1887. The Coffee—Options opened steady and closed firm. Sales, 94,500 bags, including: October, 13.05213.25c; November, 12.40212.60c; December, 11.70211.95c; January, 11.50211.80c; February, 11.45211.60c; March, 11.50211.70c; April, 11.55211.65c; May, 11.50211.80c; June, 11.602

quite freely and lower, unless really a choice article. Eggs firm and advancing in their tendency. Other markets present no new features.
